Following a Fox

A family wildlife bike trail

In Victoria Rec there's a fox,
He appears to be looking for something
He looks high and low, but does not find it

So he heads south-west on Balaclava Rd
At the roundabout, he takes the second exit onto Chadwick Pl
Then turns right to stay on Chadwick Pl
Turns left onto Prospect Rd
Turns right onto Portsmouth Rd

Where he finds...

The River Thames, where he meets a swan
Who tells him a swan can fly up to 60 miles an hour!
But this is not what he's looking for...

He heads south on Portsmouth Rd towards Anglesea Rd
Turns left onto Anglesea Rd
Then right onto Surbiton Cres
And continues straight onto Claremont Rd

After a slight right, he finds...

The Crescent! Where he uncovers a stag beetle
Stag beetles are the largest insect in Britain, it tells him
The fox continues on his search...

He heads north on The Crescent towards Grove Rd
Turns left onto Grove Rd
And then left onto Maple Rd

With another right, he finds himself...

St Andrew's Square, where a grey squirrel forages
Who tells him that as a herbivore, it lives primarily on seeds
But the fox carries on...

Heading back onto Maple Rd he turns right
Then left onto Brighton Rd
He turns left onto Glenbuck Rd
After a slight right he finds Oak Hill Grove

Where he comes across...

The Wood, where he awakens a tawny owl
Who tiredly tells him that tawny owls are nocturnal
Meaning they sleep during the day
The fox apologies and carries on...

He heads south-east on Oak Hill Grove
Turns right onto Oak Hill
Then right again onto Oakenshaw Cl
Turns left onto Langley Rd then right to stay on
With a right onto Ewell Rd
And a left onto Hollyfield Rd

His tired feet bring him to...

Fishponds Park! Where his search comes to an end,
The fox has found his family

Foxes often form a pair that lasts for life
Young foxes often stay with their parents for years
and help raise future cubs.

Relaxing in Fishponds Park
The fox tells his family about all the places he's seen
And the animals he's met.

Lost the Fox?

The total trip is 3.3 miles and takes 20 minutes to complete (not including stops) so it is perfect for younger bike riders looking to explore the nature of Surbiton.

MOVIE

MAGIC

TOUR

Step in to the worlds of your favourite films while experiencing the wonder and beauty of Bushy Park and Hampton Court.

Take a magical tour of the film sets at Hampton Court. Starting at Surbiton, your first movie location is from Harry Potter!

Use the key to find out where the movies were filmed. Can you recognise the part of the film they're from? Make sure you venture off the beaten track to see what other magic is there to discover...

Harry Potter and the Half Blood Prince

Harry is seen in the film sat in Surbiton train station on the platform. While you're at the station, why not trace Harry's steps! who knows what magic you may come across...

Sherlock Holmes: A Game of Shadows

The inner courtyard of the palace is used in the film. Put on your detective hat and see how many deer you can spot in Bushy Park.

Pirates of the Carribean: On Stranger Tides

The courtyard of Hampton Court Palace was used in the film to look like they were at St James Palace. Can you tell where Captain Jack Sparrow was dragged into the palace by the guards?

The Theory of Everything

Hampton Court gardens were used in the film to make it look like Stephen Hawking was in Buckingham Palace gardens!

The Young Victoria

How does it feel to stand where royalty have stood? Take a walk around the gardens and imagine you are a King or Queen.

This map is part of a project called 'The Wheels of Time' celebrating the history and heritage of cycling in the Royal Borough of Kingston. The project was supported by the National Lottery through the Heritage Lottery Fund.

The maps were designed by volunteers and students of Kingston University to encourage people to get on their bikes and explore the local area. You can find out more about the project and about The Community Brain at thecommunitybrain.org. Happy cycling
